

Dear IDC-6 participants,

I wish you a very Happy and Prosperous New Year 2010.

You all aware but I wish to inform you again that an IDC-6 volume will be published by the Springer-Verlag.

Title of the IDC-6 volume would be “**Dyke Swarms: Keys for Geodynamic Interpretation**”.

Important Dates for IDC-6 volume are:

Last date for submitting Full MS **7th February 2010**

Completion of Review process 30th June 2010

Submission of MS to publisher 15th July 2010

Publication of IDC volume 31st October 2010

You may submit your MS by uploading your files through the IDC-6 web site. You just log on <http://idc6.igpetbhu.com/fullpaper-submission.aspx> for your submission.

You may also submit your contribution by sending attachments to 6idc2010@gmail.com. As a large number of MSs are expected for the volume, it is suggested that please keep your MS very precise and should not exceed 12 pages including figures and tables.

Don't forget to **provide names of three reviewers** with their e-mail address. They may be requested to review your MS.

Your kind cooperation is needed for timely publication of this volume, therefore, please submit your MS on or before February 07, 2010.

With warm regards

Rajesh K. Srivastava
